Career Objective

Motivated Computer Science student with strong foundations in Java, SQL, and modern web technologies. Seeking software development roles to build scalable backend systems, robust database solutions, and efficient web applications.

Education

Mohan Babu University — Tirupati, India
B.Tech in Computer Science Engineering; CGPA : 8.5/10 — *2023 – 2027*

Sri Nidhi Junior College — Andhra Pradesh, India
Intermediate (MPC); Percentage : 75% — *2021 – 2023*

ZPH School — Polisettipadu, India
SSC; GPA : 9.8/10 — *2020 – 2021*

Technical Skills

Programming Languages: Java, Python, C
Web Technologies: HTML, CSS, JavaScript, React, TypeScript
Database & Tools: MySQL, Git, VS Code, Eclipse
Core Fundamentals: Object-Oriented Programming (OOP), DBMS, Cloud Computing, Workflow Automation

Internships

ServiceNow Virtual Intern (AICTE & SmartBridge) — June 2026 – July 2026
SmartBridge / ServiceNow University

- Gained foundational knowledge of **ServiceNow Administration**, **Flow Designer**, and **Automated Test Framework (ATF)** through structured training and hands-on practice.
- Explored **workflow automation**, system reporting, integration concepts, and introductory **Agentic AI** capabilities within the ServiceNow platform.
- **Certificate:** View Certificate

Projects

AgroMart Farm (Farmer-Centric E-Commerce Web App) | ***HTML, CSS, JS, Tailwind***

- Developed a responsive e-commerce website for farmers featuring product search, dynamic filtering, and shopping cart management.
- Built using JavaScript, Bootstrap 5, and Tailwind CSS to ensure a streamlined cross-platform user experience.
- **GitHub:** AgroMart Repository | **Live Demo:** Live Link

Stock Trading Platform | ***Java, OOP, ArrayList***

- Engineered a robust console application simulating core stock trading functionalities, including portfolio tracking and wallet balances.
- Applied Object-Oriented Programming (OOP) principles and Java Collection frameworks for efficient data handling.
- **GitHub:** Stock Trading Repository

Certifications

ServiceNow Certified System Administrator (CSA) Preparation – 2026
AWS Cloud Foundations – 2025 | **Java Programming Certification** – 2024

Achievements

DSA: Solved 100+ algorithmic problems across coding platforms.
Hackathon: Participated in **Idea Sprint**, a hackathon hosted by **IIT Tirupati**, gaining experience in collaborative problem-solving and developing innovative solutions.
